

# Smoot Plastic Surgery welcomes Sadrian to staff

Reza Sadrian, M.D., has joined the plastic surgery practice of Wendell Smoot, M.D., and John Smoot, M.D., as a member of their medical team in response to demand for additional services of their growing clientele.

Sadrian, a La Jolla resident, has more than 16 years of extensive training and is one of a few plastic surgeons in the country dually certified in oral and maxillofacial surgery as well as plastic and reconstructive surgery. He has been in practice in San Diego for 10 years.

**Reza Sadrian, M.D.**

“It’s a privilege to join a practice that has the highest reputation in the industry and offers a judicious approach to surgical procedures,” Sadrian said. “I strive to provide excellent care with integrity, honesty and a ‘sometimes less is more’ philosophy — this move is a perfect fit for me.”

His plastic and general surgery training, and additional study in oral and maxillofacial surgery, make him uniquely qualified to perform complex facial procedures, including extensive face-lifts and rhinoplasty.

“When it comes to the face, my experience allows me to view and work three-dimensionally, addressing every aspect — bone, soft tissue, skin. It can really make a dramatic effect in a patient’s outcome.”

He is trained in all aspects of facial and body plastic surgery procedures as well as microsurgery (for cancer and trauma reconstruction), peripheral nerve surgery, hand surgery, craniofacial surgery and pediatric plastic surgery.

The surgical center for the practice has three fully accredited surgical suites, a recovery unit and a qualified nursing and support staff of 17 members as well as a Laser and Skin Care Clinic, utilizing the state-of-the-art Sciton XC laser.

It is in the Ximed building on the campus of Scripps Memorial Hospital La Jolla. Visit [www.smootmd.com](http://www.smootmd.com) or call (858) 587-9850. Sadrian’s website is [www.sadriancosmeticsurgery.com](http://www.sadriancosmeticsurgery.com).
